

# The Altosid Family

# Altosid

Equals

# Prevention

# What does this mean to you as the applicator ?

- Prevention means that you can treat areas that you know will support mosquito breeding when these areas flood and can be confident that adult development will not occur for 7-10 days or more.

# Altosid

Equals

# *Efficiency*

# What this means to you as the applicator is:

- That you can treat critical mosquito breeding locations knowing that these areas will not present a problem for 7-10 days or more and then move on to other issues or areas that need attention.

# Altosid

Equals

Labor Cost Savings

# What this means to you is:

- That since labor is a mosquito control agency's largest expense, using products that last a week or more keeps technicians from repeatedly treating the same areas and allows them to focus on other areas or issues.

# Altosid

Develops

# *Confidence*

# What this means to you is:

- You can use Altosid products and know that they will perform for a week or even months without you having to repeatedly check the areas to evaluate results.

# ALTOSID LARVICIDE FORMULATIONS

- Altosid XR Briquets
- Altosid 30 Day Briquets

Mavrik will not harm  
Honeybees once it has dried

**HELLO.**  
 We can help  
 prevent  
 mosquitoes  
 from breeding  
 in your yard.

Local mosquito control districts can only control a portion of the mosquito population. We can locate and treat mosquito breeding sites on your property, by preventing mosquito larvae in standing water areas from developing into breeding, biting adults. Please contact us for more information.
