# Key Issues for your decision

- Safety
- Performance

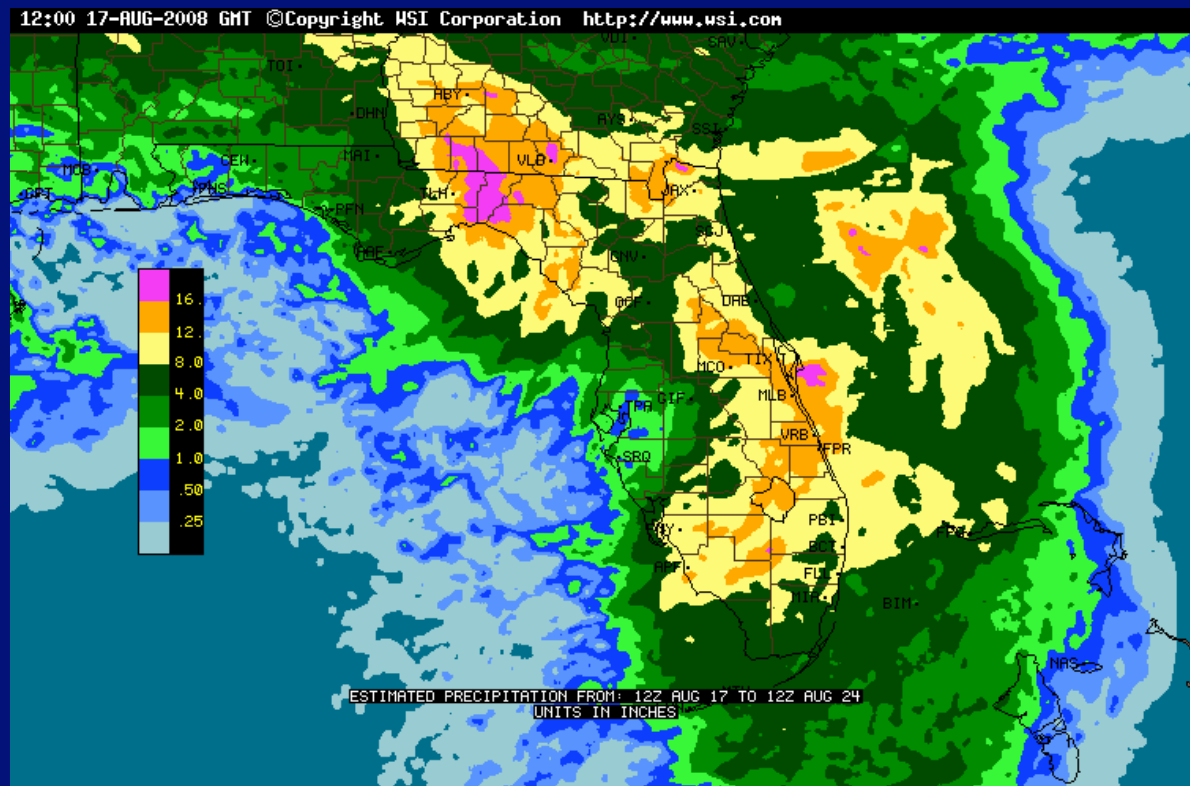

**When mosquitoes invade, it's Dibrom<sup>®</sup> Concentrate and Trumpet<sup>®</sup> EC to the rescue.**

The collage consists of four distinct images arranged in a grid. The top-left image shows a close-up of a mosquito. The top-right image shows a military aircraft in flight. The bottom-left image shows a lush green wetland landscape with water. The bottom-right image shows a large, swirling hurricane or storm system over the ocean.

# When the job is too large

# Labeled for mosquito control in residential areas

- First public health adulticide to embrace a closed system
- Wide area applications
- Naled Labeled for use on crops

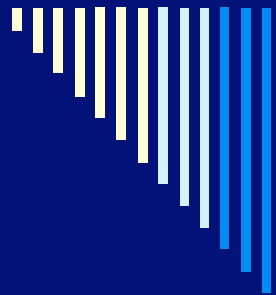

# Closed System components

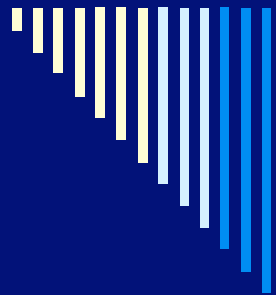

# Typical loading system

# Fixed wing or rotary delivery

# Delivery technology

Color Touch Screen

# Nuvan Prostrips Packaging

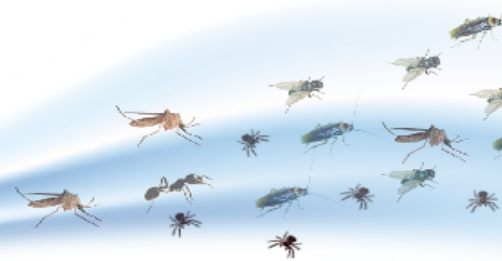

# Nuvan Prostrips + 65 gram

## Vaporize them with Nuvan ProStrips

Pests don't have a chance near Nuvan ProStrips. They are the only product containing DDVP available to the professional pest management market for residential use. Simply place this effective strip in an enclosed area and the slow-release vapor controls flying and crawling pests including flies, moths, roaches and more. It works continuously for up to four months with no odor and no mess.

The vapor action of Nuvan ProStrips is effective in hidden or enclosed areas including difficult-to-reach areas such as crawl spaces, attics and other hidden or enclosed areas.

# Nuvan Prostrips Mosquito label Language

## **Catch Basins**

Use PROSTRIP to control mosquitoes and other pests in Catch Basins where water accumulates and mosquitoes may breed. Place the appropriate number of PROSTRIPS for the space to be treated. Place PROSTRIP by suspending about ten inches above the water surface to control mosquitoes. PROSTRIP may control mosquitoes for up to four months.

## **Enclosed Utility Boxes and Utility Chases**

Use PROSTRIP to control ants (including fire ants), spiders, wasps, hornets and other pests within electric junction boxes, plumbing control boxes, pump houses and other such utility boxes as needed. Place the proper number of PROSTRIPS for the space to be treated. PROSTRIP will control pests for up to four months.

Thank You !
